H. P. HALL, Treasurer.

I hereby certify that I have examined the foregoing accounts and find them correctly cast and properly vouched.

MILON C. COOPER, Auditor.

School Report.

In view of the fact that most people form their opinions in reference to their schools from current reports, your committee think it advisable to make no detailed statement about schools further than to say that their belief is that, taken as a whole, they will compare somewhat favorably with those of late years. That they are not as efficient as they should be is plainly to be seen by any one who is qualified to judge what a good school is.

The most serious drawback to our schools is the insubordination of pupils. Hardly a report has been made for many years which did not touch quite emphatically upon this matter of insubordination. In almost every instance parents are held responsible. If this is correct it behooves every parent as well as every other citizen, to see to it that this responsibility shall no longer rest on them.

We have had teachers this year eminently well qualified for their work, so handicapped by home influence, or the lack of it, that but little real good has been accomplished. Quoting from a former report: "Fathers and Mothers, do you want good schools? An especial responsibility rests upon you. Sending them to school is not enough. The old cry "poor schools" will still ring in your ears if that is all you do."

We thank our townsmen for the assistance they have given us, and ask for even more, to the end that our schools may speedily be put where no one can rightfully cry out against them.

If improvement is made, something must be done, and somebody must do it. Let us all join hands for a long and a strong pull.

SOURCES OF OUR SCHOOL MONEY.

1. Croydon's share of the state tax is (77 cents) seventy seven cents on each thousand dollars of the tax; and by law we are required to raise, 77 per cent of \$600 (six hundred) annually for school purposes. Next year the sum will be \$462.

LITERARY FUND.

2. Every bank in the state is taxed one half of one per cent of its capital stock for educational purposes—a varying sum.

3. Croydon has a school fund of \$1,068 17 loaned at six per cent, —\$64 09 interest, which goes for the support of schools.

4. A revenue is received from the licensing of dogs, what is left after paying damages to sheep by dogs go to the support of schools —sometimes, something; then again, nothing—this year nothing.
